

Industrial PC j1900

GENERAL CHARACTERISTICS

This fanless industrial PC is the perfect PC supervisor for numeric control machines that do not need high calculating power.

The PC consists of a metal chassis which performs also the function of heat sink and is designed for wall mounting by means of 4VESA mounting holes on the sides of the chassis.

Thanks to its small sizes and high expandability PC J1900 is an object suitable for most types of applications also on small sized machines.

The PC is compatible with Windows 7, 8, 10 and Linux and can be supplied without operating system or with Windows 10 Pro.

PERFORMANCES AND SPECIFICATIONS

Colour	Silver
